OUR BUSINESS PROFILE

PNB MetLife - A snapshot

We are a professionally managed company with a pan-India, multi-channel distribution network and a comprehensive product portfolio, providing an end-to-end customer-centric service experience.

Our Bancassurance network (one of the largest bancassurance platform in the country) is backed by the Direct Sales & Agency channels, with access to over 100 Million customers.

We are one of the top 10 private life insurance companies in India based on total new business premium in FY 2018-19, and are growing rapidly with a compounded annual growth rate of 18.8% in total new business premium from FY 2015-16 to FY 2018-19.

STRONG FOUNDATIONS

Our strong parentage, resulting from a combination of MetLife's global expertise and PNB's distribution network in India, is a key pillar of our foundation. We seek to leverage our capabilities through our scalable platform that makes us well-positioned for profitable growth, particularly in the underpenetrated segments of India's life insurance market.

The high proportion of our Protection Products, accounting for 17.1% of the total NBP, coupled with our focus on retail market and traditional products, has led PNB MetLife to consistently drive value accretion for its stakeholders over the years.

OUR OFFERINGS

We are focused on our core value of keeping the customer at the center of everything that we do. Our business strategy is structured around this focus, and we are continuously crafting the customer journey experience with the intent of empowering the customer.

Our product portfolio is customized to address the diverse and evolving needs of Indian customers. We provide Protection, Savings and Pension products that cater to customers' needs through various stages of their lives.

SAVINGS PRODUCTS

To fulfill customer needs across different life stages.

PENSION PRODUCTS

To offer individuals financial support after retirement by supplementing their retirement income.

PROTECTION PRODUCTS

Credit life, individual term and health insurance products to bancassurance customers; Individual term and health insurance products to direct sales & agency sales channel customers; Group term products to corporate customers.

An end-to-end customer-centric service experience enhanced by technology and support processes further augments our long-term value proposition for our customers.

CHAIRMAN'S MESSAGE

KISHORE PONNAVOLU

Chairman, Non-Executive Director

“ Our prime focus continues to be delivering a superior customer experience. We are one of the few life insurance companies in India who have pioneered technological innovations. Our customer service applications and other technology platforms enable us to service our customers quickly and efficiently for better interactions ”

Dear Shareholders

It is my privilege to write to you on the performance of PNB MetLife India Insurance for the FY 2018-19. I am proud to report that it has been a productive year for our company and that we have sustained our position as one of the top 10 life insurance companies in India.

Value Accretive Growth

Importantly, our growth over this past year has not only been robust but also sustainable. In the current financial year, our Total Premiums increased by 20.83%, while New Business Premiums grew at 17.86%, compared to an industry growth of 10.73%. At the same time, Embedded Value increased to Rs. 3,898 Crore as on 31st March 2019, which represents an increase of 17.1% compared to the previous year, emphasizing our commitment to drive value accretive growth.

This performance is the result of our strong multi-channel distribution network, coupled with a balanced product mix that addresses the diverse life insurance needs of our customers.

Technology and Processes

Our prime focus continues to be delivering a superior customer experience. We are one of the few life insurance companies in India who have pioneered technological innovations and our customer service applications and other technology platforms enable us to service our customers quickly and efficiently for better interactions. We will continue to differentiate our customer experience through digital innovation paired with rigorous risk management.

Impacting Communities

At PNB MetLife, we believe in giving back to society. It is deeply satisfying to be able to make a difference to the people and communities around us, and while we take pride in being recognized at industry forums for our efforts, we are more proud to witness the lives we have been able to impact across India through our various CSR initiatives.

Thank You for your Support

We could not achieve any of these accomplishments without the dedication of our employees and of our management team, who have worked with a relentless focus on PNB MetLife's success. I would also like to thank all our stakeholders. As we move forward with our strategy, we look forward to your continuing support and belief.

Thank you

MD'S MESSAGE

ASHISH KUMAR SRIVASTAVA
MD & CEO

Dear Shareholders

It is indeed my pleasure to present to you the performance of PNB MetLife India Insurance as the Managing Director and CEO of the Company.

The combined synergies of our strong promoters – Punjab National Bank (PNB) and MetLife Inc (MetLife) has helped us to establish ourselves as one of the top 10 life insurance companies of India. PNB has a vast geographical reach and a large customer base, which helps us to offer life insurance solutions to the remote corners of the country. MetLife, a leading global insurer and widely acclaimed for its processes and innovations, provides us expertise to implement the best practices and innovative service infrastructure.

“ During FY 2018-19, we witnessed strong performance in line with our value accretive growth strategy. We have recorded 17.86% growth in New Business Premium (NBP). In terms of the value metrics, we delivered an improved Value of New Business margin of 21.1%. Our operating return on embedded value has also improved to 16.8% during the year ”

Performance review

During FY 2018-19, we witnessed strong performance in line with our value accretive growth strategy. We have recorded 17.86% growth in New Business Premium (NBP), which is higher than the average NBP growth of the industry. Our 13th-month persistency ratio improved to 80.24% during the year. Our focus on efficiency has resulted in lower operating expense ratio, which stands at 18.97% in FY 2018-19 as compared to 26.50% in FY 2015-16. In terms of the value metrics, we delivered an improved Value of New Business margin of 21.1%. Our operating return on embedded value has also improved to 16.8% during the year.

Strong execution focus

As we move forward to further strengthen our performance, our focus will remain on growing our distribution footprint through multiple channels. We will continue to foray into untapped markets through our bancassurance distribution platform, which is one of the largest in India driven by our partnership with PNB, Karnataka Bank and Jammu & Kashmir Bank. During FY 2018-19, we have on-boarded two new bancassurance partners – ESAF Small Finance Bank and Shinhan Bank. Also, we have tied up with new partners to cater to the microfinance segment. We will continue to pursue new tie-up in future as well. Along with bancassurance, we will be equally focused on widening our reach through other distribution channels, including Agency and Direct Sales.

We are driven by our commitment to provide the right life insurance solutions to our customers. On the technology front, we continue to focus on our 3Ds (Data, Digitize, Disrupt) approach. We have taken up various initiatives

over the year ranging from efficient claims management process to innovative technological interventions such as artificial intelligence, virtual reality, robotics and speech analytics. These efforts complement two of our core values – ‘Make Things Easier’ and ‘Put Customers First’.

New brand ambassador

In a first, we on-boarded Olympics medalist badminton star ‘PV Sindhu’ as our brand ambassador, during the year. PV Sindhu has emerged as an inspiration for her commitment on and off the court and is an epitome of the spirit of perseverance, discipline and determination – the qualities, which PNB MetLife believes in.

Giving back is important

We strongly believe in making a difference in the lives of people. During FY 2018-19, we launched our CSR initiative ‘Damini’, which is in line with our overall brand ethos – ‘Milkar Life Aage Badhayein’, focusing on creating interventions across various life stages - from the girl child to the women, aimed at their holistic empowerment. Apart from this, we continue on our mission to take Badminton to grassroots with our Junior Badminton Championship initiative. Under this, we have provided annual sponsorships to 16 underprivileged children to pursue Badminton.

On a concluding note

I would like to express my gratitude to all our customers, employees, shareholders and other stakeholders – for the trust they have reposed on us. I would also like to thank our promoter companies – PNB and MetLife for their continuous support, which has helped us to evolve as one of the Best Brands of India* and deliver value accretive growth to our shareholders.

Thank you

*PNB MetLife has won the award of ‘Best Brands 2019’ during March 2019 from The Economic Times

THE OPPORTUNITY LANDSCAPE

The industry landscape continues to be favorable to PNB MetLife’s growth, and is a powerful propeller of our business strategy.

The industry has been growing at an impressive rate, recording a strong 11% year-on-year growth on NBP basis to Rs. 2,147 Billion, whereas the private players recorded a 22% year-on-year growth to Rs. 725 Billion, during FY 2018-19.

The size of the Indian life insurance industry stood at Rs. 4.6 Trillion on a total premium basis in FY 2018. In terms of total premium, the Indian life insurance industry is the tenth largest market in the world and the fifth largest in Asia, based on Swiss Re’s Sigma No. 3/2018 report.

In 2017, 54% of premiums in the global insurance industry were derived from life insurance (with the remainder from non-life insurance), compared with 75% of premiums from life insurance for India and 56% for other emerging markets. Notwithstanding these figures, the potential for growth is still high, given the huge protection gap that suggests that India is still underinsured.

What has really propelled industry growth is the entry of private players in 2000, lending considerable traction to the sector. The number of life insurance companies increased from a mere five in FY 2000-01 to 24 in FY 2017-18, with LIC being the sole public player. The privatization of the industry also resulted in a shift from largely tax savings-oriented products to multiple products, opening new avenues of growth for players like PNB MetLife, which are well-positioned to deliver to multiple needs of customers.

Post privatization in CY 2000, the industry has grown rapidly with total premium rising at 17% compound annual rate (CAGR) during FY 2000-01 to FY 2016-17. The new business premium (NBP) grew at 9% CAGR during FY 2006-07 to FY 2017-18, to ~Rs. 1.94 Trillion.

GROWTH DRIVERS

Steering the growth and expansion of the industry are myriad factors, led by an overall positivity in the Indian economy and market.

Strong GDP growth: As per IMF forecasts, India's GDP is expected to grow at a CAGR of approximately 10% from 2018 to 2023. Faster GDP growth is expected to translate into rising incomes, which in turn is favorable for growth in the life insurance industry.

Insurance penetration and density: In 2017, India's life insurance penetration was 2.8% compared to global life insurance industry's penetration of 3.3%. Among other Asian countries, life insurance penetration in Thailand, Singapore and South Korea was 3.6%, 6.6%, and 6.6% respectively.

Significant protection gap: The protection gap for India stood at US\$ 8.5 Trillion as of CY 2014, which was much higher than its Asian counterparts. The protection margin for India was the highest amongst all the countries at 92% in Asia Pacific, as per a Swiss Re report "Mortality Protection Gap – Asia-Pacific 2015".

Increasing household and financial savings: With rising incomes and inflation under control, the household savings rate in India is expected to increase, thereby leading to increasing share of life insurance products as a proportion of total financial savings.

Increasing insurable population: India is one of the nations with the highest youth population, with a median age of 28 years. By 2020, 90% of Indians will still be below the age of 60, with 63% expected to be in the 15-59 age group. A large share of the working population, coupled with rapid urbanization and rising affluence, is expected to propel the Indian life insurance sector growth.

Increasing demand from urban and semi-urban, rural areas: The demand for financial products is gaining momentum beyond the top metro cities in India. The increasing use of organized channels by consumers for financial products and the growing knowledge about financial instruments, generally, is expected to aid growth for the life insurance sector in urban and semi-urban as well as rural areas.

BUILDING ON STRENGTHS

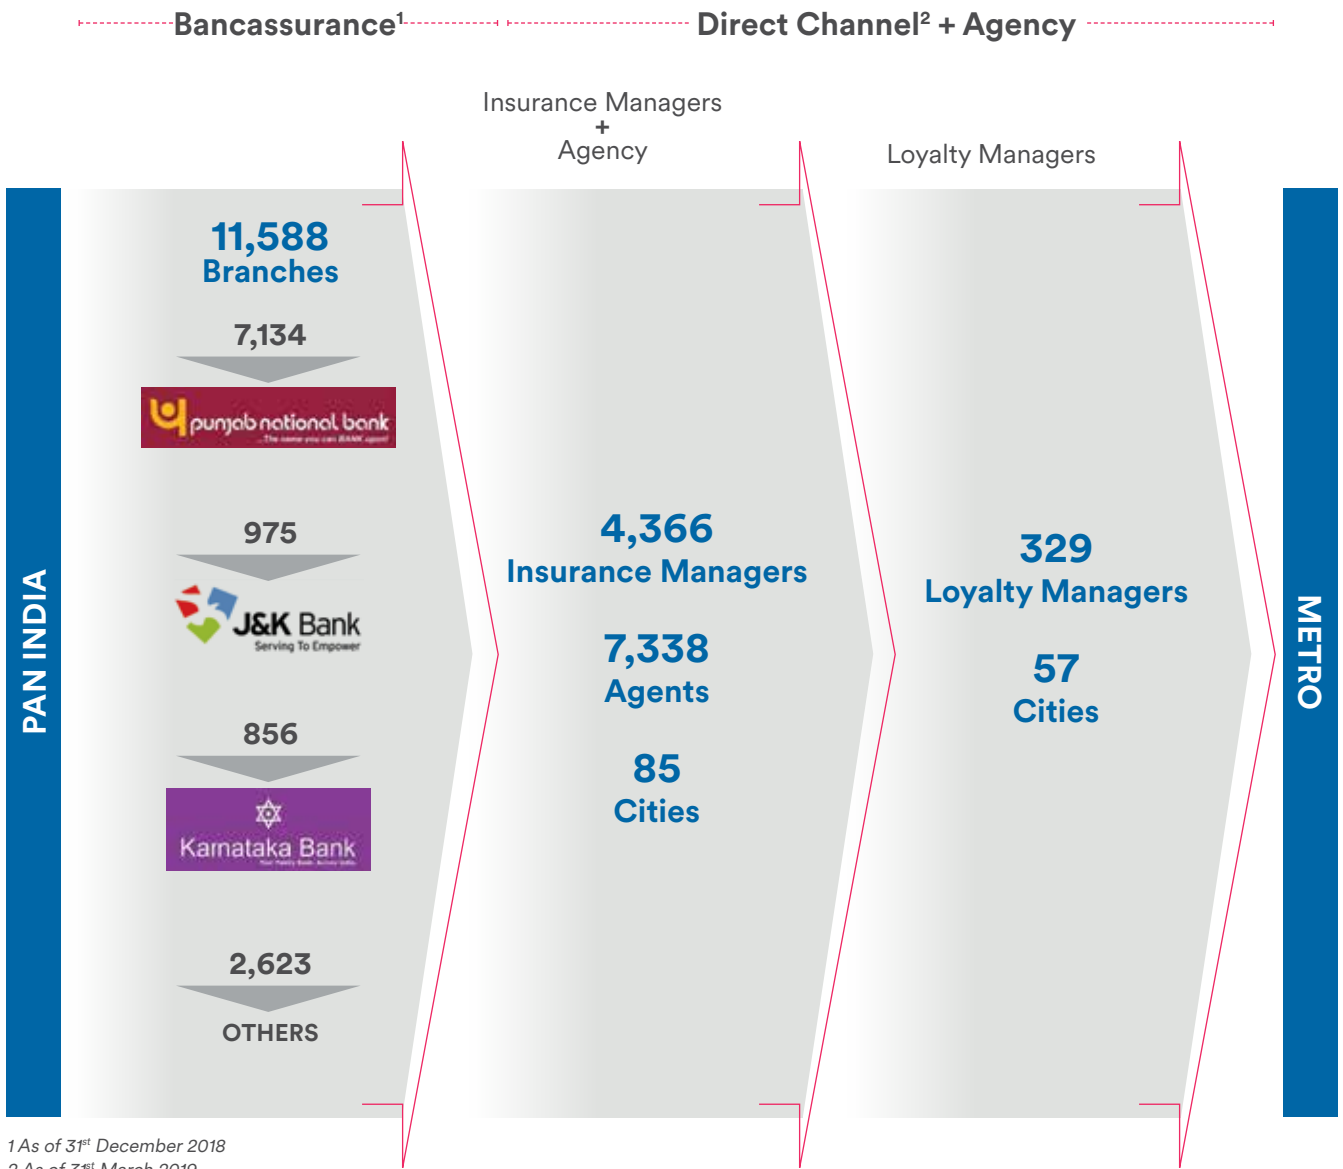

We believe that our journey of many big and small milestones is steered by our competitive strengths, which enable us to continuously grow our business while delivering value to our shareholders.

PAN-INDIA MULTI-CHANNEL DISTRIBUTION NETWORK
 Our pan-India, multi-channel distribution network includes productive bancassurance relationships with our bancassurance partners, as well as strong direct sales and agency channels that we actively manage through a consolidated operating model. This enables us to access a geographically and demographically broad Indian customer base, including a wide set of under-penetrated customer segments, resulting in a balanced geographic business mix.

MULTI-CHANNEL ARCHITECTURE

Bancassurance: As of December 2018, we had one of the largest bancassurance platform in India based on the number of scheduled bank branches across India (Source: CRISIL). Our key bancassurance partners include Punjab National Bank (PNB), Jammu and Kashmir Bank Limited (JKBL) and Karnataka Bank Limited (KBL). Over the last few years, we have entered into distribution agreements with American Express Banking Corporation, Bank of Bahrain & Kuwait (BBK), Shinhan Bank, ESAF Small Finance Bank to distribute our life insurance products.

Direct sales and agency: Our direct sales and agency sales channels, including our website, complement our bancassurance channel by allowing us to target more affluent metro, and urban and semi-urban customers through a sales process adapted to their needs.

Our agency sales channel comprises 7,338 exclusive agents as of 31st March 2019. These exclusive agents are not our employees but have contracts in place with us to sell only our life insurance products, with performance-based compensation.

GEOGRAPHY AND CHANNEL ALIGNMENT (FY19)

COMPREHENSIVE PRODUCT PORTFOLIO

The alignment between our broad product portfolio and the diversity of our customers' needs, combined with our approach to customer service, is aimed at creating a longer-term value proposition for our customers, across our diverse market segments. Within each product category, we target

our products at attractive customer segments that we can effectively and efficiently access through each of our distribution channels. We offer savings products to a wide range of customers to fulfill their needs across different life stages.

DIVERSIFIED PRODUCT PORTFOLIO

END-TO-END CUSTOMER-CENTRIC SERVICE EXPERIENCE

Our end-to-end customer-centric service experience proposition is enhanced by digitization and technology as well as support processes. We have an integrated approach to onboarding customers through simplified underwriting and “straight-through processing” of customer proposal forms, which does not involve any manual underwriting. One of our key initiatives has been to streamline our pre-sales and sales processes through “e-branch” – our digital platform officially launched in 2016 to provide a seamless, user-friendly customer experience from the prospective customer stage to policy issuance. Our online portal provides customers access to their policy and fund information, and allows them to pay their premium through their internet banking platform, while our Met Care Kit helps simplify the claims process by providing the customer with a comprehensive list of documents and forms required for processing a claim.

SCALABLE PLATFORM

We have undertaken a series of initiatives involving both targeted investment and cost reduction measures in order to create an efficient, scalable platform that positions our business for profitable growth. Our initiatives have focused on investing in processes, technology, training and people to achieve higher revenue growth with limited additional net investment.

We increased the number of our PNB bancassurance relationship managers from an average of 1,828 in FY 2015-16 to an average of 2,552 in FY 2018-19, to more effectively manage our bancassurance channel. The productivity of PNB bancassurance relationship managers has increased from Rs. 2.25 Million per annum in FY 2015-16 to Rs. 3.33 Million per annum in FY 2018-19. Given the scalability of our existing network of relationship managers, we have

the capacity to efficiently support and manage additional increases in the number of PNB qualified bank salespersons, allowing greater penetration of our PNB bancassurance channel.

The consolidated operating model for the management of our direct sales and agency sales channels is designed to efficiently scale our business. Our sales manager productivity increased at a compounded annual growth rate of 21.50% from Rs. 2.71 Million in FY 2015-16 to Rs. 4.86 Million in FY 2018-19.

We have also undertaken initiatives focused on reducing costs and exercised strong control over expense in order to support profitable growth over the longer-term. As a result of our initiatives, we have improved our operating expense ratio from 26.50% in FY 2018-19 to 18.94% in FY 2018-19, while growing total new business premium at a compounded annual rate of 18.80% during the same period.

Also, our operating return on embedded value has increased from 14.0% for twelve-month ending September 2017 to 16.8% in FY 2018-19 while during the same period our value of new business margin increased from 16.1% to 21.1%.

EXPERIENCED MANAGEMENT TEAM

As of 31st March 2019, our Key Managerial Personnel had an average of approximately 21 years of experience. We have continually augmented our management team to bring new perspectives to our business, successfully implement the initiatives across our business and improve our financial performance to position us to deliver profitable growth. We believe that our management team’s vision and experience will enable us to capitalize on our strengths and implement our strategies in order to take advantage of the significant opportunities emerging in the fast-growing Indian life insurance market.

DISRUPTING THROUGH DIGITALISATION

Digitalization is at the core of our business strategy, which is aimed at optimizing value & risk, driving operational excellence, delivering the right solution to the right customers and strengthening the distribution advantage. Our information technology architecture is structured around three key concepts: “Data”, “Digitize” and “Disrupt”.

Data: We use data analytics to develop strategies to improve our persistency rates, reduce policy surrenders, help mitigate frauds and manage mortality experience

Digitize: Investment in digitization helps improve operational efficiencies, productivity and the scalability of our operations on a selective basis

Disrupt: We aim to develop disruptive technology to differentiate our business from our competitors e.g. conVRse in 2016, Khushi in 2018, etc.

KHUSHI

DRIVING HAPPINESS

With this Artificial Intelligence (AI) driven customer service app, PNB MetLife has embarked on an AI framework to boost customer delight. Khushi is a conversational app that can chat with existing or prospective customers and help respond to their policy-related queries.

Launched in October 2018, Khushi is powered with artificial intelligence as well as speech recognition, making it a pre-emptive, predictive and proactive customer interface. This customer-friendly app helps customers view their policy details, such as sum assured/ death benefit, nominee, policy term, premium due amount/due date/frequency, last premium paid, registered bank details, policy issue date & status, fund value & portfolio.

The customer can update personal information with the Company through this app, and can also download statements and receipts, with total ease.

IVRS

ENHANCING CUSTOMER EXPERIENCE

To further augment the customer's call experience, we upgraded our IVRS to the latest platform during FY 2018-19. The upgraded application is a more flexible and scalable platform giving us the flexibility to build in future enhancements and design our own reports for analysis purpose.

With its 20 self-service options, along with real-time feedback mechanism, it provides 24/7 easy access to policy information / transactions (controls in place), with reduced dependency on telephonic resources. It also gives users instant access to customer-servicing documents such as RPR, PPC & Account statement.

The upgraded IVRS gives senior citizens direct access to call center executives, skipping the options queue. The response has been enthusiastic, with 8,911 senior citizen customers having used the dedicated/direct access to interact with our customer service executives till 31st March 2019.

Since the launch of the upgraded platform, IVRS usage trend has increased from 33% to over 65% (as against the industry-best of 40%).

ENABLING OPERATIONAL EXCELLENCE

Led by our customer-centric business philosophy, we are continuously looking at ways to empower customers and facilitate a seamless experience for them in their journey with PNB MetLife. FY 2018-19 saw a series of new initiatives launched to augment customer experience.

CARPEDIEM

Launched in April 2018, Carpe Diem is a device and operation system agnostic platform that enables our sales team to get a view of critical business parameters on real-time basis from anywhere, 24X7. The application, developed on the 'mobile first' principle, has a simple yet highly intuitive response design.

The app enables sales managers to see data real-time and allows sales team to focus more on value-adding activity. It functions as a single source of data for all review and discussion, and gives the sales team a single window to get a comprehensive view of all business projects/updates.

eBRANCH

Our 24X7 virtual branch continue to empower our sales team to manage business seamlessly and remotely during FY 2018-19. Our e-branch platform aims to provide a seamless, user-friendly customer experience from the prospective customer stage to policy issuance. This one-stop shop provides a single window for managing prospects, financial need analysis, quote generation, proposal/application submission, payment, documentation, as well as application tracking & reject resolution. Besides easing the sales team operations, it has helped enhance the customer experience. eBranch also enables us to support the huge distribution network of our Banca partners with a lean physical branch presence by standardizing the selling practices across geographies.

Approximately, 70% of cases submitted through eBranch are processed without a single rejection due to information mismatch of document with proposal form.

CULTURE OF OPERATIONAL EXCELLENCE

It is our constant endeavor to augment our efforts towards continuous nurturance of a culture of operational excellence within the organization. To this end, we have undertaken several new initiatives to facilitate our customer-facing and servicing teams go through the process of creating excellence in everything they do.

Operations Idea Lab (OIL)

This is a platform where employees can submit ideas, which are screened by experts, followed by a panel review. Ideas are shortlisted on the criteria of cost benefit, process efficiency and customer experience. The experts and the ideators then collaborate to kickstart the process of idea execution, with the panel members handholding and tracking the ideas till implementation. Monthly updates on overall status of ideas are shared with Operations head and teams.

REACHING OUT TO CUSTOMERS

Our marketing strategy is aligned to our customer-centric focus and is oriented towards reaching out to customers more effectively. With the onboarding of ace badminton player and Olympic medalist PV Sindhu as our brand ambassador, we shaped the contours of our marketing strategy during FY 2018-19 to make it even more relevant to building a strong customer connect. The tie-up seeks to bring alive the brand promise of being the right life insurance partner to every Indian, and resonates with the Company's assertive tag-line – 'Milkar Life Aage Badhayein', which promises to partner with its stakeholders in every stage of life.

#SHEDTHEWAIT

We launched our new marketing campaign #ShedTheWait in association with Sindhu during the year. Further, she represents the spirit of perseverance, discipline, and determination – the qualities which we, at PNB MetLife, believe in and remain committed to strengthening in our progressive journey.

The campaign urges people to stop letting the responsibilities of tomorrow become a burden today, by illustrating that they don't have to wait to fulfill their responsibilities. Instead, with a partner like PNB MetLife by their side to protect their family, they can live their life to the fullest today and have a secured future.

The #ShedTheWait outdoor brand campaign targeted 215+ sites in 31 cities across the country, while the TV campaign spanned 35+ channels with 5,300+ spots, spread over 22+ active days.

GOING DEEPER

We are imbuing our CSR initiative – ‘Damini’, with the same idea, with Sindhu empowering girls at every stage of their journey in becoming a woman. Sindhu also endorses PNB MetLife Junior Badminton Championship to nurture talent at the grassroots level. The event focuses on children in the age group of 7 to 15 years.

PNB MetLife has been ranked 5th in the awareness scores for March 2019 in BFSI category.

OUR COMMUNITY OUTREACH

Our people-centric business philosophy is powered by a strong sense of responsibility. We extend our people outreach not only to our employees but the community at large.

DAMINI

Our CSR initiative – Damini, is in line with our overall brand ethos – ‘Milkar Life Aage Badhayein’ and focuses on spreading awareness and catalyzing change in a woman’s life, right from the stage of a Girl Child. The initiative is centred around aiding and standing by women across all their

life stages through partnerships with various NGOs catering to women’s diverse needs.

The program focuses on sensitizing communities about essential education, health, sanitation and skills.

Some of the key programmes under Damini include:

Girl Child Education:

- Supporting the education of 2,300+ children in 60 schools of Moga (Punjab) and Varanasi (Uttar Pradesh)
- Current year-long project (ending 9th October 2019) employs 75 local women as part-time teachers

Awareness on Sanitation and Personal Hygiene:

- Program encompasses hygiene and sanitation initiatives, focused on menstrual health.
- Being conducted among women at 292 locations, across Kolar (Karnataka) and Udaipur (Rajasthan)
- Current year-long project (ending on 9th October 2019) covers 21 villages in Udaipur, 16 in Kolar, 10 in Koppal and three in Raichur
- 2,811 women beneficiaries positively impacted

Skill Development and Financial Inclusion for Women:

- Program to enable women to break the glass ceiling through multiple efforts for livelihood enhancement
- Changed many lives by encouraging shared prosperity, decision-making, mobility, and financial inclusion
- 305 training programmes held in 80 villages of Varanasi during FY 2018-19 to facilitate livelihood for 748 women (188 in agriculture and 560 in textiles industry)
- Recently inaugurated a ‘Sakhi Livelihood Center’ at Varanasi, which serves as a counseling-cum-training hub for engaging in promotions, sales and marketing of rural products

Fighting sexual abuse, rape & molestation:

- Awareness sessions conducted on sexual abuse for children in three schools have benefited 649 children in Varanasi (UP) so far
- Activities include awareness sessions, tutorials and written material etc., under project (current duration 01st January 2019 to 31st May 2019)
- Sessions growing bigger in Varanasi, with sessions also planned to be held in 12 schools of Pune

An annual property of PNB MetLife, the Junior Badminton Championship (JBC) aims to take Badminton to grassroots in line with the Company's belief that that physical fitness is as important to a person's happiness as fiscal fitness.

The Company, in association with an NGO, conducts training programs for the underprivileged children across major cities of India. Recognized by Badminton Association of India (BIA), the JBC tournaments are being conducted since the past five years with the aim to transform the junior badminton players of the country into champions, and realize our ambition to promote India's second-most popular sport among the 5-15-year-old

During FY 2018-19, 500 children participated in JBC 4, of which 64 were shortlisted for coaching and training, and 16 finally selected for one-year scholarships (including training, nutrition and kits) to pursue Badminton as a sport.

Preparations are currently in progress for the upcoming JBC 5 tournament, where the Company, in association with an NGO, is providing training to 100 selected children from Delhi, Mumbai, Bengaluru, Chennai and Kolkata. The top 32 children from the JBC 5 tournament will be provided with one-year scholarships.

DIRECTORS' REPORT

Dear Shareholders, PNB MetLife India Insurance Company Limited

Your Directors take pleasure in presenting the Eighteenth Annual Report for the year ended 31st March, 2019 along with audited financial statements for the year ended 31st March 2019.

INDUSTRY PERFORMANCE:

The Indian life insurance market is the tenth largest life insurance market in the world and the fifth largest in Asia in terms of total premium in Fiscal 2018, according to Swiss Re Institute, sigma No 3/2018. However, India continues to be an underpenetrated insurance market with a life insurance penetration of only 2.8% in 2017, compared to a global average of 3.3% (Source: CRISIL). In addition, the protection gap in India at US\$8.5 Trillion is much higher than its Asian counterparts, while the protection margin for India was the highest amongst all the countries at 92% in Asia Pacific in 2014 (Source: Swiss Re, Economic Research & Consulting "Mortality Protection Gap Asia-Pacific 2015).

The key drivers of growth for the Indian life insurance industry are strong GDP growth and rising incomes, low insurance penetration and density, increasing household and financial savings, increasing insurable population, rise in urbanization, increasing demand from urban, semi-urban and rural areas and digitization.

In Fiscal 2019, the life insurance industry in India grew by 10.73% year-on-year compared to fiscal 2018 on total new

business premium (NBP) basis to Rs. 2,146.7 billion and by 6.1% year-on-year on individual NBP basis to Rs. 976.8 billion.

THE STATE OF COMPANY AFFAIRS:

We were one of the top 10 private life insurance companies in India based on total NBP in Fiscal 2019 and grew at an annual growth rate of 17.86% in total NBP from Fiscal 2018 to Fiscal 2019.

Our history and relationships with MetLife and PNB have enabled us to become a strong, professionally managed company with the capabilities necessary to take advantage of significant opportunities in the fast growing Indian life insurance market. MetLife, including its subsidiaries and affiliates, is a leading global insurance company with a presence in more than 40 countries. MetLife International Holdings, LLC, a subsidiary of MetLife, has been our shareholder since August 2001. PNB is one of the largest banks in India based on total branches as of December 31, 2018 (Source: RBI). PNB has been our distribution partner since October 2011 and our shareholder since January 2013.

We have a pan-India, multi-channel distribution network, a comprehensive product portfolio and provide an end-to-end customer-centric service experience. We believe, this positions us well to access a broad Indian customer base and address the evolving needs of Indian customers. We seek to leverage our capabilities through our scalable platform to generate profitable growth, particularly in underpenetrated segments of India's life insurance market.

13th month persistency	80.24%	77.03%	-

All numbers in Rs. crores

*As per the embedded value results reviewed by Willis Towers Watson Actuarial Advisory LLP

Our individual NBP accounted for 82.85% of our total NBP in Fiscal 2019. Our individual NBP increased at an annual growth rate of 11.08% in Fiscal 2019 compared to fiscal 2018. Our total premium increased by 17.86% in Fiscal 2019. We have improved our operating expense ratio from 20.61% in Fiscal 2018 to 18.97% in Fiscal 2019. In Fiscal 2019, our embedded value growth was 17.1%, our operating return on embedded value was 16.8% and our value of new business margin was 21.1%.

Our distribution network consists of our bancassurance, direct sales, agency and other distribution channels, through which we generated 64.01%, 29.39%, 3.81% and 2.80% of our total NBP, respectively, and 65.51%, 29.07%, 4.57% and 0.86% of our individual NBP, respectively, in Fiscal 2019. Our product portfolio covers three principal customer needs – savings, protection and pension, which in Fiscal 2019 accounted for 77.25%, 17.15% and 5.60% of our total NBP, respectively, and 93.25%, 5.16% and 1.60% of our individual NBP, respectively. In Fiscal 2019, we launched 5 new products and modified 1 product.

The alignment between our broad product portfolio and the diversity of our customers' needs, combined with our approach to customer service, has been a key contributor to improvements in our persistency ratios. Our 13th month persistency ratio has improved from 77.03% in Fiscal 2018 to 80.24% in Fiscal 2019. We expect that our product portfolio and our customer services will continue to drive improvements in our persistency ratios over the longer-term, including for subsequent premium. Our overall claims settlement ratio for Fiscal 2019 was 96.96%; 96.21% for individual segment and 98.81% for group segment.

We expect the following competitive strengths will enable us to continue growing our business while delivering value to our shareholders:

- Our pan-India, multi-channel distribution network positions us to access a demographically and geographically broad customer base across India.
- Our comprehensive product portfolio addresses the diverse and evolving needs of Indian customers, and is complemented by an end-to-end customer-centric service experience.
- Our scalable platform positions us for profitable growth.
- Our experienced management team.

Our strategy is to leverage our competitive strengths to drive profitable growth. We will seek to achieve this by:

- Increasing the activation of the PNB branch network and deepening our penetration of the PNB customer base.

- Growing and diversifying our multi-channel distribution footprint to strengthen our position in various geographies and customer segments.
- Delivering products aligned to the diverse needs of Indian customers supported by an end-to-end customer-centric service experience.
- Driving profitability by leveraging scale and increasing persistency.
- Utilizing information technology and implementing digitization to drive efficiencies.

CORPORATE SOCIAL RESPONSIBILITY (CSR) INITIATIVES

At PNB MetLife, Corporate Social Responsibility (CSR) is a vital pillar which will help us establish a bond between our community and our stakeholders.

Our CSR journey began in the year 2014, when we undertook initiatives, on multiple thrust areas of education, health, livelihood, sanitation, nutrition and sports. For our CSR programs, we have been primarily focussing on – Financial Inclusion; Health Initiatives; Education and Vocational Training; Disaster Relief and Rehabilitation Activities; Promotion of nationally recognized sports and Insurance Awareness.

In order to create impact on the communities we serve, we have aligned our CSR activities as follows:

Damini

PNB MetLife's CSR initiative – Damini is in line with its overall brand ethos – 'Milkar Life Aage Badhayein' and focuses on creating intervention across various life stages from Girl to Women. Under this initiative, we broadly support -

- **Girl Child Education:** We have on boarded Nanhi Kali NGO, an initiative by K.C. Mahindra Education Trust, to support the education of underprivileged girl children. As on 31st March 2019, we have provided education to 2,000 Nanhi Kalis from across 60 locations in Moga (Punjab) and Varanasi (Uttar Pradesh) and have employed 75 local women as part-time teachers. As a part of this program, further 305 children will be provided education from across 10 locations in Varanasi.
- **Women Empowerment or 'Sakhi Swavalamban' program:** We have conducted skill development training and financial literacy awareness programs for 748 women from 80 villages across the Varanasi district. This activity was carried on with help of our execution partner - Drishtee Foundation. As on 31st March 2019, we have conducted 305 such training programs. We have also inaugurated 'Sakhi Livelihood Center' at Varanasi, which serves as a counselling cum training hub for the women beneficiaries under Sakhi Swavalamban program, to enable them to engage in promotions, sales and marketing of rural products.
- **Awareness on Sanitation and Personal Hygiene:** Under this program, in association with Goonj NGO, we conduct awareness programs on menstrual health and hygiene across Kolar, Koppal and Raichur in Karnataka and Udaipur in Rajasthan. As on 31st March 2019, 2,811 have been benefitted through this program. Further, 3,189 women will be benefitted through this program across villages of Karnataka and Rajasthan.
- **Awareness Camps on Sexual Abuse among Children:** We have tied-up with Covenant Social Service to conduct sessions at schools across Pune (Maharashtra) for Stop Saram initiative. This initiative aims to spread awareness on sexual abuse among children. As on 31st March 2019, 649 children from across three schools in Pune have been benefitted through this initiative. Further, we plan to conduct these awareness program in 12 more schools in Pune.
- **Higher education to girls from Paraplegic Rehabilitation Center (PRC):** During FY2018-19, we have supported higher education of 2 girls from PRC (Pune, Maharashtra), by sponsoring their 2nd year MBA course fees. We also supported the para badminton players from PRC by providing sponsorships at two such badminton tournaments.

PNB MetLife Junior Badminton Champion (JBC)

PNB MetLife Junior Badminton Championship (JBC) is an annual property of the Company, which aims to take Badminton to

grassroots. Through this initiative we aim to promote health and fitness among consumers by conducting nation-wide badminton tournaments involving under-privileged children. CRY NGO is our execution partner for JBC initiative.

During FY2018-19, we provided coaching and training on badminton to 64 underprivileged children from across the country to participate in the Junior Badminton Championship 4 (JBC 4). Out of this 64 children, 16 children were provided with an annual sponsorship to pursue Badminton.

We have initiated pre-event activities for Junior Badminton Championship 5 (JBC 5) tournament, which is scheduled to be organized during June 2019. During FY2018-19, 3500 under-privileged children participated for the friendly matches across Delhi, Mumbai, Bangalore, Chennai and Kolkata. 100 selected children from this group have been undergoing coaching and training to participate in JBC 5. Further the top 32 children from the JBC 5 tournament will be provided with one-year scholarships to pursue Badminton.

Apart from the activities under Damini and JBC initiatives, during FY2018-19, we have also contributed to Chief Minister's relief fund for Kerala flood victims.

CSR Spends:

An amount of Rs. 3.95 crore has been paid / provided for on various CSR activities as approved by the CSR Committee and the Board during the Financial Year, as against the budgeted amount of Rs. 3.96 crore. During the year the Company was unable to spend the budgeted amount on CSR as per Section 135 the unspent budget amount of Rs. 0.01 crores on account of:

- Delay in identifying an appropriate space for setting up a Livelihood Centre by Drishtee NGO at Varanasi, which was set up in March 2019. On account of this, the budgeted expenditure of Rs. 51,461 towards the furnishing of the centre couldn't be spent before 31st March 2019.

STATEMENT IN RESPECT OF ADEQUACY OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THE FINANCIAL STATEMENTS

The Company has established a governance framework and a control environment, commensurate with the size, scale and complexity of its operations. The corporate governance framework of the Company is based on an effective independent Board, separation of Board's supervisory role from the executive management and constitution of Board Committees, generally comprising a majority of independent/non-executive directors and chaired by independent directors to oversee critical areas. The Board committees are supported by executive committees to oversee at an operational level. All employees are bound by the Code of business conduct and ethics approved by the Board of Directors.

The Company has a reporting and review framework comprising quarterly reporting and review of audited financials and investment returns to regulators and shareholders. The financials prepared are audited by joint statutory auditors, and are reviewed by Audit Committee on a quarterly basis. They are also submitted to IRDAI. The Company has in place

adequate internal financial controls across all major processes with respect to financial statements. There are processes in place to continuously monitor the adequacy of such controls. Design assessment of controls as per annual plan for F.Y. 2018-19 have been performed and no material weaknesses were observed. The results of review were placed before the Audit Committee. The Company follows a strong 3 lines of defense model, wherein the business functions form the first line of defense, the compliance and risk functions form the second line of defense and the internal audit function forms the third line of defense. Internal audit team exercises independent control over operational and financial processes and significant internal audit observations and corrective actions thereon are presented to the Audit Committee of the Board. Investment operations are subject to concurrent audit certification on a daily basis.

IND AS IMPLEMENTATION

The International Accounting Standards Board (IASB) on November 2018 has deferred the effective date for IFRS 17 to January 2022. The Life Insurance Council and Institute of Actuaries of India have represented to IRDAI and Ministry of Corporate Affairs respectively, seeking deferment of the new accounting standards Ind-AS for the Insurance Industry till the time when it is implemented internationally

The Company has filed the pro-forma financial statements on a quarterly basis within prescribed timelines upto December 31, 2018, in compliance with Para 4 of IRDAI circular no. IRDA/F&A/ CIR/IFRS/038/03/2016 dated March 01, 2016. The pro-forma financial statements were prepared in accordance with guidance and format available in "Report of the Implementation group of Ind AS in Insurance Sector" issued by IRDAI through its circular no. IRDA/F&A/CIR/ACTS/ 262/12/2016 dated December 30, 2016.

ENTERPRISE RISK MANAGEMENT

The Company is committed to integrate and strengthen the role of risk management in business processes and decisions.

In compliance with the Corporate Governance Guidelines issued by IRDAI, the risk governance structure of the Company consists of

- i) the Board
- ii) the Asset Liability Management and Risk Management Committee of the Board (ALMR)
- iii) the Executive level Risk Management Committee (RMC) and its supporting committees.

The Charter of the ALMR is twofold

- i) This is a supervisory body to set up the Company's risk/reward objectives to formulate and implement optimal ALM strategies so as to meet these objectives,
- ii) Lay down the Company's Risk Management Strategy

The Board approved Enterprise Risk Management policy (“the Policy”) details assessment and control standards relating to the various individual risks. The Policy is aligned with COSO® framework and covers aspects related to:

- i) Financial Risk Management or Asset Liability Management (‘ALM’): covering market risk, credit risk, liquidity risk and insurance risk
- ii) Operational Risk Management

The key objectives of the Policy are as follows:

- Determining the risk profile of the Company i.e. the aggregate level of risks that the Company has undertaken in pursuit of profitable business.
- Identification, measuring, monitoring and control of risk for the purpose of protecting the interests of key stakeholders.
- Enhancing the Company’s ability to identify and pursue opportunities that offer attractive risk-adjusted returns by providing transparent, accurate and timely risk information.
- Embedding risk-based decision making in key management processes and fostering a culture of risk awareness.
- Limiting the Company’s exposure to adverse outcomes through risk limits. The Company has established a comprehensive Risk Appetite Statement to achieve its strategic objectives operating within the agreed risk limits.
- Ensuring compliance with regulatory requirements.
- Focusing on ensuring that it possesses the appropriate capabilities and experience in managing and transferring risks.
- Minimizing reputational risk.

The risk management function is headed by the ‘Chief Risk Officer’ and is responsible for establishing sound risk management practices by proactively identifying, measuring, mitigating and monitoring the organization’s risk exposures. The risk management framework of the Company is based on four guiding principles viz. ‘Controlled Risk-Taking’, ‘Ownership, Accountability & Authority’, ‘Specialization’ & ‘Change Management’.

The Company’s risk exposure could also be in the areas of adverse claims experience, shortfall in investment performance and high expense levels. Mitigation steps in each of these areas have been taken as below:-

- The Company’s underwriting policy and implementation of the same are subject to continuous monitoring and review. Adequate and suitable reinsurance treaties are in force with internationally reputed and highly rated reinsurers.

- The investments of the Company are in accordance with IRDAI guidelines and as per the Investment Policy approved by the Investment Committee of the Board which stipulates appropriate risk exposures. For achieving the objectives, Credit, Liquidity and Market risks are evaluated on a continuous basis. The assets of the Company are invested in accordance with the requirements prescribed by the IRDAI.
- Expenses are continuously monitored to ensure that the expense levels are commensurate with the level of operations of the Company.

KEY POLICIES & FRAMEWORK

A. Corporate Social Responsibility (CSR) Policy

The Company has CSR policy in line with the provisions of Section 135 of the Companies Act, 2013 read with Schedule VII and the rules made thereunder, the CSR policy is uploaded on the website of the Company at <https://www.pnbmetlife.com/investor-relations/company-policies.html>

B. Whistle Blower Policy/Vigil Mechanism

The Company has a Whistle Blower policy in place which encourages its employees to report matters without the risk of subsequent victimisation. It provides a mechanism to employees and other persons dealing with the Company to report any instance of actual or suspected fraud, raise concerns internally about possible irregularities, governance weakness, financial reporting issues or other such matters. Access to the Chairman of the Audit Committee is also provided to the employees under the policy to report any matter as well as a direct hotline number to raise any concerns. During the time period April 2018 to March 2019, the Company received 5 whistle blower complaints of which all 5 have been disposed of and actions have been taken as per company’s policies.

C. Remuneration Policy

In terms of the provisions of Section 178 (4) of the Companies Act, 2013 and IRDAI Corporate Governance Guidelines, the Company has policy on remuneration of Non- Executive Directors, Managing Director/CEO and Whole Time Directors and also Compensation Policy for its full time employees excluding the Managing Director/CEO and Whole Time Directors duly recommended by the Nomination and Remuneration Committee, and approved by the Board of Directors.

The aforesaid policies is placed on the website of the Company at <https://www.pnbmetlife.com/investor-relations/company-policies.html>

Further the disclosure as required to be made under IRDAI Guidelines on Remuneration of Non-Executive Directors and Managing Director/CEO/WTD is as under:

QUALITATIVE MEASURES

(i) Information relating to the design and structure of remuneration processes and the key features and objectives of remuneration policy

The Nomination & Remuneration Committee of the Board (NRC) oversees the remuneration aspects and the functions of NRC include reviewing and approving, on an annual basis, measures to carry out evaluation of Board and Director's performance; to determine, review and formulate on behalf of the Board the Company's policy on remuneration for the CEO, Executive Directors and Key Management Persons (KMPs); to scrutinize application and details for appointment as KMPs including doing independent reference checks and recommending their appointment; to review the talent management and succession process to ensure business continuity and roll out and administer any Share based employee benefit scheme including ESOP, ESPS, ESOS etc. as may be approved by the Shareholders of the Company and further subject to statutory and regulatory approvals including that of the Insurance Regulatory and Development Authority or such other body or authority as may be applicable.

The key principles guiding the design of the Company's compensation program are as follows:

Performance: Rewards are linked to organizational and individual performance against both qualitative and quantitative goals and objectives.

Values: Rewards are also linked to how employees go about their work or, more specifically, their demonstration of the PNB MetLife Values which are essentially the behaviours expected of the company's employees.

Market aligned: Reward opportunities are competitive with the external labour market in order to ensure parity. Market analysis should involve comparing jobs in the Company to similar jobs in similar companies in a recognized market survey.

Internal Equity: Reward opportunities are internally equitable, subject to the individual's experience, performance and other relevant factors.

Prudent Risk: Rewards, particularly in the form of incentive compensation, must not encourage excessive risk and should be based in part on the long-term performance outcomes of risks taken. Risk should always be taken within approved policies, limits and Organisation's ability to effectively identify and manage such risk.

Also, while designing the remuneration policy / processes, it is ensured that it is not only a proper balance between fixed pay and variable pay but is also based on performance as evaluated by the Board or the NRC and approved by the Board. The deterioration in the financial performance of PNB MetLife and the other parameters is considered by the NRC/ Board while deciding on the total amount of variable remuneration to be paid.

(ii) Description of the ways in which current and future risks are taken into account in the remuneration processes

PMLI policy ensures that the remuneration is in line with the overall enterprise risk framework of the organisation and also the variable pay schemes are designed to ensure applicability over a time period thereby covering the associated risks.

- The annual compensation is linked to achievement of predefined and Board approved financial parameters covering the Growth, Value metrics, Efficiency and Quality parameters of the organisation
- Significant component of the remuneration like Short term and Long Term incentives are spread across a certain time period and linked to financial performance of the company to take care of the inherent risk

Additionally, Incentive compensation awards (either cash or equity based) provided to any current or former employee may be reduced prospectively and/or retrospectively in the event of one or more of the following circumstances:

- It is determined that an employee has engaged in conduct, detrimental to PNB MetLife either through direct action or failure to act in carrying out his/her responsibilities;
- There is evidence of a serious breach of internal risk management or compliance procedures on the part of the employee;
- There is evidence of a serious breach of internal risk management or compliance procedure

PNB MetLife follows a compensation philosophy of pay for performance and aligns the company's compensation plans with its short and long term business strategies. Our compensation philosophy reinforces the company's pay for performance culture by making a material portion of total compensation variable and differentiating awards based on individual and company performance. Our performance management process requires goals to be defined on an annual basis with the evaluation having equal emphasis on 'What is achieved' and 'How it is achieved'. For senior management, the variable payouts are largely dependent upon the achievement of company's financial performance where each manager considers the performance during the annual pay for performance process and makes recommendations for each element of pay. Further, the financial metrics used for calculating bonus funding is approved by the Board.

ANNEXURE - C

Annual Corporate Social Responsibility (CSR) Report for the FY 2018-19

1) CSR POLICY

PNB MetLife believes in corporate citizenship and is committed towards development of the disadvantaged and underprivileged communities in the needy locations of the country. The Company began its CSR initiatives in the year 2014 with its programmes in Education, Healthcare, Nutrition, Sanitation and Promotion of Sports in alignment with the CSR mandate under Section 135 of the Companies Act, 2013.

Post three years of successful CSR implementation, the Company decided to revamp its CSR approach to take up focussed programmes in few thrust areas, which are impactful and sustainable. Thus it was decided by the Board during the meeting held on August, 2018, to launch 'Damini', under which there are key CSR initiatives, that focuses on creating intervention across various life stages from Girl Child to Women. Under Damini, the Company supports the following initiatives:

- **Girl Child Education:** The Company, in association with Nanhi Kali NGO supports the education of 2000 children at Moga (Punjab) and Varanasi (Uttar Pradesh). Continuing the momentum, further 305 children will be supported at Varanasi in the new curriculum.
- **Women Empowerment or 'Sakhi Swavalamban' program:** The Company has partnered with Drishtee NGO for skill development training and financial literacy awareness programs. 748 women from 80 villages across the Varanasi district has benefitted from this initiative. The Company has also inaugurated 'Sakhi Livelihood Center' at Varanasi, which serves as a counselling cum training hub for engaging in promotions, sales and marketing of rural products.
- **Awareness on Sanitation and Personal Hygiene:** Under this program, the Company in association with Goonj NGO conducts awareness programs on menstrual health and hygiene. As on 31st Mar 2019, 2,811 women from the states of Karnataka and Rajasthan have been benefitted through this program. Further, as a part of this initiative, 3,189 women will be benefitted.
- **Awareness Programs to Children on Sexual Abuse:** The Company has partnered with Covenant Social Service to support 'Stop Saram' initiative, which conducts awareness sessions on sexual abuse among children at the schools in Pune. As on 31st Mar, 2019, 649 children from across 3 schools at Pune have been benefitted from this initiative. Further, sessions

at 12 more schools at Pune are scheduled to be conducted.

- **Higher Education to girls from Paraplegic Rehabilitation Center (PRC):** The Company has supported the higher education of 2 girls from PRC by sponsoring their 2nd year MBA fees. The Company also extended their support to PRC Badminton Players by facilitating the 3rd Para National Archery Championship 2019, Rohtak and the 3rd National Para Badminton Championship 2019 at Udham Singh Nagar, Uttarakhand.

We continued our support to promote Badminton to nurture fresh talent through JBC 4 (PNB MetLife Junior Badminton Championships) which has given exposure and training to underprivileged children, who are promising players for competing in national and international tournaments. 16 winners from JBC 4 have been provided with annual sponsorship to pursue Badminton. Also, currently 100 shortlisted children have been undergoing Badminton coaching and training for the upcoming JBC 5 tournament, which is scheduled during June 2019. Top 32 children from JBC 5 will be further provided with annual sponsorships to pursue Badminton.

BOARD MEETINGS
Notice, Agenda and Minutes

The Board meets 4 times during the year. Additional meetings are held as and when necessary. The Board Meetings are governed by a structured Agenda. The Agenda along with detailed explanatory notes and supporting material are circulated in advance before each meeting to all the Directors for facilitating effective discussion and decision making. The proceedings of each meeting of the Board and its Committees are conducted in accordance with the provisions of the Companies Act, 2013 and rules made thereunder.

The Companies Act, 2013 read with rules issued thereunder, allows conducting of meetings through audio-visual means or video-conferencing. Accordingly, the Directors are given an option to participate at the meetings through video conferencing mode. In case of a special and urgent business need, the Board's approval is taken by passing resolutions by circulation, as permitted by law, which is confirmed in the next Board Meeting. The Company Secretary is responsible for collation, preparation and distribution of the Agenda papers submitted to the Board and preparation of minutes. The Head of Legal & Board Affairs and the Company Secretary attend all the meetings of the Board and its Committees.

(d) In the case of the Receipts and Payments Account, of the receipts and payments for the year ended on 31st March, 2019

2. BASIS FOR OPINION

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3. KEY AUDIT MATTERS

Key audit matters are those matters that in our professional judgment were of most significance in our audit of the financial statement of the current period. Based on the circumstances and facts of the audit and the Company, we report that there are no key audit matters to be communicated.

4. OTHER INFORMATION

The Company's Board of Directors is responsible for the other information. We have been provided with the other information included in the Director's Report with Annexures thereto, Management Report and Corporate Governance Report which did not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information referred to above and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Based on the audit work we have performed, we have nothing to report in this regard.

5. RESPONSIBILITY OF MANAGEMENT FOR THE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, and cash flows of the Company in accordance with the accounting principles generally accepted in India and other applicable Accounting Standards specified under section 133 of the Act. Management is also responsible for the preparation of these financial statements in accordance with the requirement of the Insurance Act, 1938 as amended by Insurance Law (Amendment) Act, 2015, The Insurance Regulatory and Development Act, 1999, Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 ('the Regulations') and the Companies Act, 2013 (the Act), to the extent applicable.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the company's financial reporting process.

6. AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from

material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exist, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

7. OTHER MATTERS:

- (a) We report that the actuarial valuation of liabilities for life policies in force and for policies in respect of which premium is discontinued but liability exists as at 31st March, 2019 is the responsibility of the Company's Appointed Actuary ('the Appointed Actuary'). The Appointed Actuary has estimated and duly certified the actuarial valuation of liabilities for policies as at 31st March, 2019 and in his opinion the assumptions for such valuation are in accordance with the guidelines and norms issued by the Insurance Regulatory and Development Authority of India ('IRDAI') and the Institute of Actuaries of India in concurrence with the Authority. We have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the financial statements of the Company. Our opinion is not modified in respect of this matter.
- (b) As required by the IRDAI Financial Statements Regulations, we have issued a separate certificate dated 10th May, 2019 certifying the matters specified in paragraphs 3 and 4 of Schedule C to the IRDAI Financial Statements Regulations.
- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) As the Company's financial accounting system is centralized at Head Office, no returns for the purposes of our audit are prepared at the branches and other offices of the Company.
- d) The Balance Sheet, the related Policy Holders' Revenue Account (Technical Account), the Shareholders' Profit and Loss Account (Non-Technical Account) and Receipts and Payments Account (Statement of Cash Flows) for the year ended on 31st March, 2019, dealt with by this Report are in agreement with the books of account.
- e) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act to the extent applicable, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- f) On the basis of the written representations received from the directors as on 31st March, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2019 from being appointed as a director in terms of Section 164(2) of the Companies Act, 2013.
- g) in our opinion and to the best of our information and according to the explanations given to us, investments have been valued in accordance with the provisions of the Insurance Act, the IRDAI Financial Statements Regulations and/or orders/directions issued by the IRDAI in this regard;
- h) in our opinion the accounting policies selected by the Company are appropriate and are in compliance with orders the applicable Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended) and with the accounting principles prescribed in IRDAI Financial Statements Regulations and /directions issued by the IRDAI in this regard.
- i) With respect to the internal financial controls with reference to the financial statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A. Our report expresses an unmodified opinion on the existence and operating effectiveness of the company's internal financials controls with reference to the financial statements.
- j) The managerial remuneration paid to the Managing Director and Chief Executive Officer (MD & CEO) of

8. REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

ANNEXURE - A

Referred to in paragraph 7(i) under Report on Other Legal and Regulatory Requirements of our report of even date.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **PNB MetLife India Insurance Company Limited** ("the Company") as of 31 March 2019 in conjunction with our audit of the financial statements of the Company for the year ended on that date. The actuarial valuation of liabilities for life policies in force and policies where premium is discontinued is required to be certified by the Appointed Actuary as per the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 (the "IRDA Financial Statements Regulations"), and has been relied upon by us, as mentioned in "Other Matter" para of our audit report on the financial statements of the Company as at and for the year ended March 31, 2019. Accordingly, we have not audited the internal financial controls over financial reporting in respect of the valuation and accuracy of the aforesaid actuarial valuation.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to financial statements of the Company that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013. including the provisions of the Insurance Act, 1938 as amended by the Insurance Laws (Amendment) Act, 2015 read with Insurance Regulatory and Development Authority of India circular IRDA/F&A/CIR/CPM/059/03/2015 dated 31st March, 2015 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the IRDA Financial Statements Regulations, orders/directions issued by the Insurance Regulatory and Development Authority of India (the "IRDAI") in this regard.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls with reference to financial statements over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial

statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal

financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us, the Company has in all material respects, internal financial controls with reference to the financial statements of the Company and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SCHEDULE – 16

SIGNIFICANT ACCOUNTING POLICIES AND NOTES FORMING PART OF FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2019

1. CORPORATE INFORMATION

PNB MetLife India Insurance Company Limited ('the Company') was incorporated in India on April 11, 2001 as a Private Limited Company and was converted into a Public Limited Company effective from January 9, 2008 under the Companies Act, 1956. On August 6, 2001, the Company obtained the certificate of registration to engage in the business of life insurance from the Insurance Regulatory and Development Authority of India ('IRDAI'). The certificate of registration continues to be in force as at March 31, 2019.

The Company's life insurance business comprises of individual life and group business, including participating, non-participating, pension, immediate annuity, unit-linked insurance products, health and micro insurance. Some of these policies have riders such as accident and disability benefit, and critical illness.

2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of preparation

The accompanying financial statements have been prepared under the historical cost convention and on the accrual basis of accounting in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) in compliance with the applicable accounting standards as specified under section 133 of the Companies Act, 2013 (the Act 2013) and as prescribed by the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2002 ('the IRDAI Financial Statements Regulations'), provisions of the Insurance Regulatory and Development Authority Act, 1999, the Insurance Act, 1938, the Insurance Laws (Amendment) Act 2015, to the extent applicable, the relevant provisions of the Companies Act, 2013 and 'the IRDAI Financial Statements Regulations', the Master Circular on Preparation of Financial Statements and Filing of Returns of Life Insurance Business Ref No. IRDA/F&A/Cir/232/12/2013 dated December 11, 2013 ('the Master Circular') and various orders/ directions/ circulars issued by the IRDAI and the practices prevailing within the insurance industry in India.

Accounting policies have been consistently applied to the extent applicable and in the manner so required

2.2 Use of Estimates

The preparation of the financial statements in conformity with Indian GAAP requires that the Company's management make estimates and assumptions that affect the reported amount of income and expense for

the year, reported balances of assets and liabilities and disclosures related to contingent liabilities as at the date of the financial statements. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as at the date of the financial statements. Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Actual results may differ from the estimates and assumptions used in preparing the financial statements. Any differences of actual to such estimates are recognised in the year in which the results are known or materialised. Any revision to accounting estimates is recognised prospectively in current and future periods.

2.3 Revenue recognition

Premium:

New business premium in respect of non-linked policies including rider premium is recognised on acceptance of risk. For all the policies which are in force as at the Balance Sheet date, subsequent premium of the first year and renewal premium are recognised as income when due. In respect of linked policies, premium income including rider premium is recognised when the associated units are allotted.

Premium on lapsed policies are recognised as income when such policies are reinstated. Top up premiums are considered as single premium.

Income from unit linked policies:

Income from unit linked policies, which includes fund management charges, policy administration charges, mortality charges, etc., are recovered from the unit linked funds in accordance with the terms and conditions of policies issued and are recognized when due.

Income earned on Investments:

Interest income is recognized on an accrual basis for all funds.

Amortization of premium or accretion of discount at the time of purchase of debt securities is recognized over the remaining period of maturity on a straight line basis.

Dividend income is accounted for on "ex-dividend" date in case of listed equity and preference shares and in case of unlisted shares, income is recognized when the right to receive the dividend is established.

Profit or loss on sale/redemption of debt securities for unit linked business, is the difference between the net sale proceeds and the weighted average cost as on the

date of sale and for other than unit linked business, it is the difference between the net sale proceeds and the weighted average amortised cost as on the date of sale.

Profit or loss on sale/redemption of equity shares, equity exchange traded fund (ETF) and mutual fund units for unit linked business, is the difference between the net sale proceeds and the weighted average cost as on the date of sale and for other than unit linked business, the profit or loss includes the accumulated changes in the fair value previously recognised under "Fair Value Change Account" in the Balance Sheet.

Unrealized gains or losses arising out of valuation of unit Linked – Policyholders' Investments are recognized in the respective fund's Revenue Account.

2.4 Income from loans against policies

Interest income on loans against policies is accounted for on an accrual basis.

2.5 Reinsurance premium

Reinsurance premium ceded is accounted for on due basis at the time of recognition of premium income basis the treaty arrangement with the reinsurers.

2.6 Acquisition costs

Acquisition costs are the expenses which are incurred to source and issue the insurance contract. These costs are expensed in the year in which they are incurred.

2.7 Benefits paid (including claims settlement costs)

Death, health and surrender claims are accounted on receipt of intimation subject to eligibility as per policy terms and conditions. Maturity claims & periodical benefits are accounted when due for payment. Surrenders, lapses (after expiry of lock in period) and withdrawals of unit linked policies are accounted in the respective funds when the associated units are deallocated.

Reinsurance recoverable is accounted for when the corresponding claim expenditure is recognized

2.8 Liability for life policies in force and paid up policies

Liabilities for life policies in force and also policies in respect of which premium has been discontinued but a liability exists, is calculated by the Appointed Actuary on the basis of gross premium valuation method in accordance with accepted actuarial practice, professional guidance notes issued by the Institute of Actuaries of India, provisions of the Insurance Act, 1938 (as amended from time to time) and the relevant regulations notified by the IRDAI from time to time. The liabilities are calculated in a manner that together with estimated future premium income and investment income, the Company can meet estimated future claims (including bonus entitlements to policyholders) and expenses. The linked policies carry two types of

liabilities – unit liability representing the fund value of policies and non-unit liability to meet any likely deficiencies in the charges under the policy which might arise on account of mortality, expenses and other elements.

Actuarial method and assumptions are given in note 3.2

2.9 Investments:

Investments are made in accordance with the Insurance Act, 1938 (as amended in 2015), the Insurance Regulatory and Development Authority (Investment) Regulations, 2016, and other circulars/notifications issued by the IRDAI in this context from time to time.

Investments are recognised at cost on the date of purchase which includes brokerage and related taxes and excludes pre-acquisition interest accrued, if any.

Classification:

Investments maturing within twelve months from Balance Sheet date and investment made with the specific intention to dispose them off within twelve months from Balance Sheet date are classified as short term investments. Investments other than short term investments are classified as long term investments. Equity shares are classified as long term investment.

Valuation – Shareholders' investments and non-linked policyholders' investments:

All debt securities, including Government securities, are considered as 'held to maturity' and accordingly stated at amortized cost.

The difference between the acquisition price and the face value of treasury bills, certificate of deposits, commercial papers and Collateral Borrowing and Lending Obligation (CBLO)/Triparty Repo (TREPS) is amortised and recognized as income/expense over the remaining term of these instruments, on a straight line basis. In case of zero coupon bonds, redemption value is considered as the face value.

As prescribed by IRDAI, for valuation of listed equity shares and equity exchange traded fund (ETF), the Company has selected National Stock Exchange (NSE) as the primary exchange and the Bombay Stock Exchange (BSE) as the secondary exchange. Accordingly, the closing price of NSE is used for the purpose of valuation of equity shares and equity ETF. If the security is not listed/not traded on the NSE but traded on the BSE, then the closing price of BSE is used. Investment in unlisted equity shares are stated at historical cost. Additional Tier I Bonds (AT-1 Bonds) are stated at market value, using applicable market yield rates published by SEBI registered rating agency (Credit Rating Information Services of India Ltd. (CRISIL) Bond Valuer.

Mutual fund units as at the Balance Sheet date are valued at the previous business day's net asset values (NAV).

Unrealised gains/losses arising due to changes in the fair value of mutual funds, listed equity shares and AT-1 Bonds are taken to "Fair value change Account" in the Balance Sheet. In case of diminution, other than temporary, the amount of diminution is recognised as an expense in the Revenue/Profit and Loss Account, as applicable.

Fixed deposits with banks are valued at cost.

Valuation – Assets held to cover linked liabilities:

All debt securities, including Government securities, are valued at market value using CRISIL Bond Valuer / CRISIL Gilt Prices, as applicable.

Money market instruments – Treasury bills, certificate of deposits, commercial papers, CBLO/ TREPS are being stated at amortized cost.

As prescribed by IRDAI, for valuation of listed equity shares and equity ETF, the Company has selected NSE as the primary exchange and BSE as the secondary exchange. Accordingly, the closing price of NSE is used for the purpose of valuation of equity shares and ETF. If the security is not listed/not traded on the NSE but traded on the BSE, then the closing price of BSE is used for valuation.

Mutual fund units as at the Balance Sheet date are valued at the previous business day's NAV.

Rights/Bonus entitlements, if any, are accounted on ex-rights/ex-bonus date of the principal stock exchange.

Fixed deposits with banks are valued at cost.

Transfer of Investments:

Transfer of investments from Shareholders to Policyholders to meet the deficit in the Policyholders' fund account are effected at lower of cost (for debt securities net amortized cost) or market value on the previous day. The transfer of Investment between unit linked funds is done at the prevailing market price.

Impairment of Investment

The Company periodically assesses using internal and external sources and at each Balance Sheet date whether there is an indication of impairment of investment. In case of impairment, other than temporary, the carrying value of such investment is reduced to its fair value and the impairment loss is recognised in the Revenue/Profit and Loss Account, as applicable. However, at the Balance Sheet date if there is an indication that a previously recognised impairment loss no longer exists, then such loss is reversed and the investment is restated to that extent.

2.10 Non-Performing Assets (NPA)

In accordance with the IRDAI regulations on "Prudential norms for income recognition, asset classification, provisioning and other related matters in respect of debt portfolio", all assets where the interest and / or instalment

of principal repayment remain overdue for more than 90 days (i.e., one quarter) are classified as NPA at the Balance Sheet date.

2.11 Fixed assets and depreciation/amortisation

Tangible Assets and depreciation:

An item of property, plant & equipment that qualifies for recognition as an asset is stated at cost less accumulated depreciation and impairment losses, if any. Cost includes the purchase price and any cost directly attributable in bringing the asset to its working condition for its intended use.

Subsequent expenditure related to an item of asset is added to its book value only if such expenditure results in an increase in the future economic benefit from the existing assets. All other expenditure on existing assets is charged to the Revenue Account/ Profit & Loss Account, as the case may be, for the period during which such expenditure is incurred. Any additions to the original fixed assets are depreciated over the remaining useful life of the original asset.

Depreciation is charged on pro-rata basis from the date of such addition or, as the case may be, up to the date on which such asset has been sold or discarded

Depreciation is provided on the straight line method (SLM) as per the useful life of the assets as specified in Schedule II of the Companies Act, 2013. Any asset costing Rs. 5,000 or less is fully depreciated in the year of purchase. The estimated useful life of various asset class is as follows:

Asset class	Estimated useful life
Building	60 years
Leasehold improvements	Lease period, not exceeding 5 years
Furniture and fittings	10 years
Information technology equipment	3 years
Leased Information technology Equipment	3 years
Information technology server and network equipment	6 years
Vehicles	8 years
Office equipment	5 years

The residual value and the useful life of an asset is reviewed at each Balance Sheet date and if expectations differ from the previous estimates, the change is accounted for as a change in accounting estimate in accordance with AS 5 - Accounting for net profit or loss for the period, prior period items and changes in accounting policies.

Intangible Assets and amortization:

Intangible assets comprising software are stated at cost less amortisation. Significant expenditure on improvements to software are added to its book value only when it is

probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably.

Software expenses are amortised using straight line method over license period not exceeding 3 years. Subsequent expenditures are amortised over the remaining useful life of the original software.

Capital work-in-progress:

Cost of fixed assets, which are not ready for its intended use as at the Balance sheet date are disclosed as capital work in progress. Similarly, advances paid towards the acquisition of fixed assets as at the Balance Sheet date are disclosed as capital work-in-progress.

2.12 Leases:

Finance lease:

Leases where lessor effectively transfers, substantially all the risks and benefits incidental to ownership of the leased assets, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged to the Revenue Account.

Operating lease:

Leases, where the lessor effectively retains substantially all the risks and benefits of ownership of the leased asset, are classified as operating leases. Operating lease rentals including escalations are recognized as an expense in the Revenue Account on a straight-line basis over the lease period.

2.13 Impairment of assets

The Company periodically assesses, using internal and external sources at each Balance Sheet date, whether there is an indication that an asset may be impaired. Impairment occurs where the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. The impairment loss to be expensed is determined as the excess of the carrying amount over the higher of the asset's net realisable value or value in use, as determined above.

2.14 Policy Loans

The loans against policies are stated at historical cost (less repayments), subject to provision for doubtful recovery, if any.

2.15 Foreign currency transactions

Transactions in foreign currency are recorded at the rate of exchange prevailing on the date of transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the closing rate as at the

Balance Sheet date. The resulting exchange gain or loss is reflected in the Revenue Account or Profit and Loss Account, as applicable.

2.16 Taxation

A. Direct Taxes:

(i) Current taxes:

Current tax is the amount expected to be paid to the tax authorities after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961, as amended from time to time, applicable to life insurance companies.

(ii) Deferred taxes:

Deferred tax is recognised on timing differences, being the difference between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. In case of unabsorbed depreciation and carry forward of losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets.

Deferred tax assets and liabilities are offset if such items relate to taxes on income levied by the same governing tax laws and the Company has a legally enforceable right for such set off. Deferred tax assets are reviewed at each Balance Sheet date for their realisation.

B. Indirect Taxes

Goods & Services Tax (GST) liability is set-off against eligible tax credits available from tax paid on input services. Unutilized credits, if any, are carried forward for future set-off under 'Schedule 12 -Advances and other assets'.

2.17 Employee benefits

Short-term employee benefits:

All employee benefits payable within twelve months of rendering the service are classified as short-term employee benefits. These benefits include performance incentives, short term compensated absence, etc. The undiscounted amount of short-term employee benefits expected to be paid are recognised during the period when the employee renders the service.

Defined contribution plans:

The Company's contribution to provident fund and employee state insurance scheme are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made during the period when service is rendered by the employees.

Defined benefit plans:

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuation being carried out at each Balance Sheet date. Actuarial gains and/or losses are recognised in the Revenue Account and Profit and Loss account, as the case may be, in the period in which they occur. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation and same is determined based on the actuarial valuation at the Balance Sheet date using the projected unit credit method.

Long-term employee benefits:

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of the defined benefit obligation as at the Balance Sheet date. Actuarial gains and/or losses due to change in actuarial valuation of such employee benefit plans are recognised in the period of occurrence for all employee benefits.

Long term Incentive plan (LTIP):

Performance stock units (PSU) and restricted stock units (RSU) were granted to eligible employees' basis defined parameters until December 31st, 2016. The vesting price of these stock units were based on common stock (share) price of MetLife Inc. as at the vesting date. The liability and corresponding expense is accounted for on the basis of actuarial valuation carried out by an independent actuary at the Balance Sheet date and is true-up at the time of vesting/payment.

Basis the IRDAI guidelines on 'Indian Owned and Controlled' in 2016, a new LTI program was introduced effective January 1st, 2017. The said program is a deferred cash plan and the quantum of grant to eligible employees is based on performance of the Company. The proportionate liability and corresponding expense is accounted for in line with the vesting period.

ESOP & Cash LTI Scheme 2017:

The Company has introduced an ESOP scheme in December 2017 wherein certain eligible employees are granted options to subscribe to equity shares of the Company which vest in a graded manner. The vested options may be exercised within a specified period. The grant is conditional and contingent upon listing of shares of the Company, within the specified period as approved by the Board from time to time.

In accordance with the Guidance Note on Accounting for Employee Share-based payments, the Company follows the intrinsic value method to account for its share based

employee compensation plan. Compensation cost is measured as the excess, if any, of the fair market price of the underlying stock over the exercise price on the grant date and amortised over the vesting period.

A Cash LTI scheme was introduced for eligible employees who are not covered under the ESOP 2017 scheme. The scheme is also contingent upon listing of the shares of the Company, within the specified period, as approved by the Board from time to time. As the stipulated conditions of ESOP and cash LTI Scheme 2017 are not being met, the same have been closed effective January 30, 2019 and all rights that were granted as a part of the scheme stand withdrawn.

2.18 Statement of Receipts and Payments

The statement of receipts and payments has been prepared in accordance with the direct method prescribed in Accounting Standard 3, 'Cash Flow Statement'.

2.19 Segment Reporting

As per Accounting Standard 17 on 'Segment Reporting' read with the IRDAI Regulations, the Company is required to report segment results separately for the participating, non-participating, health, unit linked and pension business segments ('the business segments'). Accordingly, the Company has provided primary segment information for the business segments, as disclosed in Annexure 4.

There are no reportable geographical segments since the Company provides services to customers in the Indian market only and does not distinguish any reportable regions within India.

The following basis has been used for allocation of revenue, expenses, assets and liabilities to the business segments:

- (a) Premium income, commission, benefits paid, operating expenses, investments and policyholders' liabilities which are directly identifiable with business segments are disclosed under respective business segment.
- (b) Fixed assets, current assets, current liabilities and provisions, which cannot be directly attributable to the business segments, are allocated to the business segments on the basis of one of the below mentioned factors as deemed appropriate considering the nature of item:
 - Average in-force policies
 - New business premium
- (c) Expenses which are not directly attributable to the business segments are apportioned on the basis of following factors as deemed appropriate considering the nature of expenses.
 - Average in-force policies
 - New business premium

- (d) The method of allocation of operating expenses has been decided based on the nature of the expense and its logical correlation with various business segments.

2.20 Funds for Future Appropriations (FFA)

The Funds for Future Appropriations (FFA) represents the surplus in participating segment which is not allocated to policyholders or shareholders as at the Balance Sheet date. Transfers to and/or from the fund reflect the surplus/deficit of income over expense of par segment. Any allocation to the par policyholders by way of bonuses would also give rise to a transfer to Shareholders' Profit and Loss Account in the required proportion.

The FFA in the linked business represents surplus on the lapsed policies unlikely to be revived. This surplus is required to be held within the policyholders' fund till the time policyholders are eligible for revival of their policies. After expiry of the revival period, the FFA would be appropriated towards the surplus.

2.21 Earnings per share (AS 20)

As required by AS 20, basic earnings per share are calculated by dividing the net profit or loss for the year available to equity shareholders by the weighted average number of equity shares outstanding during the period. Further,

for the purpose of calculating diluted earnings per share, the weighted average number of shares outstanding during the year including that of subscription received against rights issue (pending allotment) is adjusted for the effects of all dilutive potential equity shares

2.22 Provisions, Contingent liabilities and Contingent assets

The Company creates a provision for claims, litigation, assessment, fines, penalties, etc. when there is present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are neither recognized nor disclosed in the financial statements since they may result in the recognition of income that may never be received unless it becomes virtually certain that an inflow of economic benefits will arise and accordingly the asset and the related income shall be recognized in the financial statements of the period in which the change occurs.

- Rs. 652,101 thousands (Rs. 109,140 thousands as at March 31, 2018) for the financial years 2010-11 to 2012-13 and 2015-16, pertaining to demand from Income Tax authorities pending before Hon'ble Karnataka High Court and CIT (A) respectively.

** The disclosure requirement as a contingent liability has been withdrawn from the FY 2018-19 vide circular number: IRDAI/F& A/CIR/ Misc/105/07/2018 dated 11th July 2018 issued by IRDAI.

3.2 Actuarial method and assumptions underlying the valuation of policy liabilities

The actuarial value of the policy liabilities as on March 31, 2019 has been estimated using actuarial assumptions and methods which are consistent with:

- generally accepted actuarial practices;
- the provisions of The Insurance Act, 1938 (as amended from time to time);
- regulations and guidelines issued by the IRDAI; and
- the relevant Actuarial Practice Standards (APS) and Guidance notes issued by the Institute of Actuaries of India

The following summarises the assumptions used for the year ending March 31, 2019 as compared to the previous year i.e. March 31, 2018.

The assumptions are based on prudent estimates of the future experience, and hence include margins for adverse deviations over and above the best estimate assumptions. A brief on the assumptions used in actuarial valuation is as below:

- **Valuation rate of interest:**
 - o For Participating products, the valuation rate of interest has been taken as 6.3 per cent for first 5 years and 5.95 per cent thereafter per annum Same period last year the valuation rate of interest rate was taken as 6 per cent except for the following below mentioned products for which the valuation rate of interest was taken as 6.25 per cent per annum
 - Met Suidha Par (UIN 117N017V01)
 - Met Monthly Income 15 Pay (UIN 117N070V01)
 - Met Monthly Income 7 Pay (UIN 117N064V01)
 - Met Monthly Income Plan (UIN 117N050V01)

- o For Non-Participating products valuation rate of interest has been taken as 5.7 per cent for first 5 years and 5.4 per cent thereafter (same period last year, 5.5 per cent) per annum. These interest rates reflect the expected long term yields on the investments backing these liabilities with a margin for adverse deviations.
 - **Mortality:** Mortality assumptions are set in accordance with Clause 5(2) of Schedule II of the IRDAI (Assets, Liabilities and Solvency Margin of Life Insurance Business) Regulations, 2016. The mortality rates used are basis the published Indian Assured Lives Mortality (IALM) table (2006-08) in line with latest experience analysis of the business. In the case of annuity benefits for Non-participating policies, mortality assumption is based on the LIC Annuitants (1996-1998) table adjusted for mortality improvement. Morbidity rates used are based on CIBT 93 table, adjusted for expected experience.
 - **Expenses:** The allowance for commissions is on the basis of the actual rates of renewal commission payable to the financial advisors. The renewal expenses are allowed in the valuation both as a percentage of premium and on per policy basis. Claim related expenses have also been factored for all the individual products. The expense inflation is taken as 5.5 per cent (same period last year, 5.8 per cent) per annum.
 - **Persistency:** The expected persistency has been assumed based on the experience of the Company and varies by duration of the policy and by nature of products.
 - **Future Bonuses:** Provision made for future bonuses based on the estimated expected bonus payouts, allowing for the reserving interest rate.

The policy liability for the Group one-year renewable products has been calculated as the unexpired premium reserve. In case of group products with term more than one year, Gross Premium Valuation Method has been used. For group products administered as cash accumulation account, the account values of the policies are considered as reserve.

The reserves for unit-linked life and pension products comprise two parts - Unit reserves and non-unit reserves. Unit reserves represent the value of units attached to the unit linked policies as on the valuation date. Non-unit reserves are calculated taking into consideration the future expected cash outgoes and incomes in respect of all in-force unit linked policies.

The reinsurance cash flows have been appropriately factored into the calculation of the reserves by projecting the expected mortality benefits that would arise on account of reinsurance net of the expected reinsurance premiums payable.

Other provisions include

- Provisions for free look cancellations have been allowed for individual non-linked, linked and group credit life products based on experience.
- Provisions for IBNR claims have been made for Individual and Group business.
- Provision has been made for any additional expenses that the Company may have to incur if it were to close to new business twelve months after the valuation date.
- Reserves have been kept for lapsed and reduced paid up policies eligible for revivals.
- Extra mortality risk premiums charged for extra risk have been set aside as reserve.
- Adequate rider reserves have been set aside
- Additional reserves have been set where deaths have already occurred but liability continues to exist, like cases wherein waiver of premium option has been availed

Adequate margins for adverse deviations are taken in the valuation assumptions as per the regulations and guidelines issued by IRDAI and the APS and Guidance Note issued by Institute of Actuaries of India. All in-force policies as per the policy administration database have been considered for the estimation of policy liabilities.

3.3 Encumbrances on assets

Assets of the Company are free from encumbrances, other than information technology equipment on finance lease, which have been capitalised in accordance with Accounting Standard 19 on 'Leases' as notified by the Companies (Accounting Standards) Amendment Rules, 2016. There are no assets including loans subjected to restructuring (as at March 31, 2018 – Rs. Nil).

3.4 Capital commitments

There are no commitments made and outstanding for loans and investments as at March 31, 2019 (as at March 31, 2018 – Rs. Nil). The estimated amount of commitments made by the Company and not provided (net of advances) for fixed assets as at March 31, 2019 aggregate to Rs. 155,886 thousands (as at March 31, 2018 – Rs. 83,870 thousands).

3.5 Lease commitments

The Company acquired information technology equipment and computer software under finance lease. The minimum amounts payable in future on finance leases and their present value are as follows:

(Rs. in '000)

	Total	Not later than 1 year	1 to 5 years	Later than 5 years
March 31, 2019				
Minimum lease payments ('MLPs') outstanding	49,412	49,412	-	-
Less: Finance charges	2,233	2,233	-	-
Present value of MLPs outstanding	47,179	47,179	-	-
March 31, 2018				
Minimum lease payments ('MLPs') outstanding	115,295	49,412	65,883	-
Less: Finance charges	10,092	6,423	3,669	-

MANAGEMENT REPORT

FOR THE YEAR ENDED MARCH 31, 2019

With respect to the operations of PNB MetLife India Insurance Company Limited ('the Company') for the year ended March 31, 2019 and results thereof, the Management of the Company confirms and declares that:

1. The Certificate of Registration granted by the Insurance Regulatory and Development Authority of India (IRDAI) continues to be in force as at March 31, 2019. As per the circular IRDA/F&A/CIR/GLD/062/04/2015 dated April 7, 2015 issued by IRDAI, the authority has discontinued the process of issuing a renewed physical certificate and the existing certificate is valid from the date of issuance.
2. We certify, to the best of our knowledge and belief, that all material dues payable to the statutory authorities have been duly paid.
3. The shareholding pattern and transfer of shares during the year are in accordance with statutory and regulatory requirements.
4. The management has not invested directly or indirectly outside India the funds of the holders of policies issued in India.
5. The solvency margins as required by the regulations prescribed by the IRDAI have been maintained.
6. The Company has reviewed the values of all the assets as at March 31, 2019. We certify to the best of our knowledge and belief, that the value of the assets as set forth in the Balance Sheet are shown in the aggregate at amounts not exceeding their realizable or market value under the several headings – "Loans", "Investments", "Agents balances", "Outstanding Premiums", "Interest, Dividends and Rents outstanding", "Interest, Dividends, Rents accruing but not due", "Amounts due from other persons or Bodies carrying on insurance business", "Sundry Debtors", "Bills Receivable", "Cash" and the several items specified under "Other Accounts".
7. We certify that no part of the life insurance fund has been directly or indirectly applied in contravention of the Insurance Act, 1938 (as amended in 2015), IRDA (Investment) Regulation, 2016 as amended and applicable circulars and guidelines relating to the application and investments of the life insurance funds.
8. In a process oriented industry like insurance, it is important to integrate and strengthen the role of risk management in business processes and decisions. In order to enable the same, the risk management in the Company is managed by an independent risk management function. The role of the risk management function is to establish sound risk management practices by proactively identifying, measuring, mitigating and monitoring the organization's risk exposures. Our risk management is based upon four guiding principles viz. 'Controlled Risk-Taking', 'Ownership, Accountability and Authority', 'Specialization' and 'Change Management'. The Enterprise Risk Management framework is designed to manage the Insurance, Market, Credit, Liquidity and Operational Risks. Assessment is done on a regular basis to evaluate enterprise wide risks and take appropriate steps to mitigate the same.
9. Apart from this, In order to monitor the Risk Management at Board level, as per Corporate Governance Guidelines issued by IRDAI, Asset Liability Management & Risk Management Committee (ALMR) is established as a sub-committee of the Board. ALMR committee is setting up the Company's risk/reward objectives, formulate and implement optimal ALM strategies and also lay down Company's Risk Management Strategy. The committee will also provide ALM and Risk management governance oversight throughout the Company.
10. The Company's risk exposure could also be in the areas of adverse claims experience, shortfall in investment performance and high expense levels. Mitigation steps in each of these areas are stated below:
 - The Company's underwriting policy and implementation of the same are subjected to continuous monitoring and review. Adequate and suitable reinsurance treaties are in force with internationally reputed and highly rated reinsurers.
 - The investments of the Company are in accordance with IRDAI guidelines and as per the Investment Policy approved by the Investment Committee of the Board which stipulates appropriate risk exposures. credit risk, liquidity risk and market risks are also evaluated on a continuous basis.
 - The assets of the Company are invested in accordance with the requirements prescribed by the IRDAI.
 - Expenses are continuously monitored to ensure that the expense levels are commensurate with the level of operations of the company.
11. The Company is not operating in any other country.
12. Death claims registered and not settled (where all the documentations have been completed) as on March 31, 2019 is NIL.

Trends in death claim settlement time for the last five financial years are given below:

EMBEDDED VALUE REPORT

This report on Embedded Value results as at March 31, 2019 has been prepared by the Company and the results presented in the report have been reviewed by Willis Towers Watson Actuarial Advisory LLP.

1. BASIS OF PREPARATION

The embedded value is a measure of the consolidated value of shareholders' interest in the covered life insurance business. The Indian embedded value (IEV) results presented below have been determined by following a market consistent methodology, as per the requirements and principles set forth by the Institute of Actuaries of India (IAI) within the Actuarial Practice Standard 10 (APS10). A detailed description of the IEV methodology is provided in Section 3.

3. Methodology

IEV is calculated as the sum of Adjusted Net Worth (ANW) and Value of In-Force business (VIF).

ANW comprises Free Surplus (FS) and Required Capital (RC).

VIF consists of the following components:

- Present Value of Future Profits (PVFP) expected to emerge from the covered business;
- Less: Frictional Cost of Capital (FCoC);
- Less: Time Value of Financial Options and Guarantees (TVFOG);
- Less: Cost of Residual Non-Hedgeable Risks (CRNHR).

3.1. Components of ANW

Free Surplus (FS): Free Surplus represents the market value of any assets in excess of liabilities and Required Capital which is potentially distributable to shareholders immediately. Free Surplus has been calculated as the excess of ANW over the Required Capital.

Required Capital (RC): Required Capital is the amount of assets attributed to the covered business over and above that required to back liabilities for the covered business, whose distribution to shareholders is restricted. Required Capital has been set at 170% of the Required Solvency Margin (RSM), based on the Company's internal capital target. RSM has been projected by applying the solvency margin factors prescribed by the IRDAI appropriate to each line of business.

3.2. Components of VIF

Present Value of Future Profits (PVFP): PVFP represents the present value of future post taxation shareholder cash-flows projected to emerge from the in-force covered business and the assets backing liabilities of the in-force covered business. The PVFP incorporates an allowance for the intrinsic value of financial options and guarantees.

Frictional Cost of Capital (FCoC): FCoC reflects the impact of taxation on investment returns and investment costs on the assets backing required capital. Required Capital is assumed to be maintained throughout the lifetime of the underlying liabilities, at the internal target level of 170% of the RSM, calculated based on the factors prescribed by IRDAI.

Cost of Residual Non-Hedgeable Risks (CRNHR): The CRNHR is an allowance for risks to shareholder value to the extent that such risks are not already allowed for in the TVFOG or the PVFP. The CRNHR has been determined using a cost of capital approach. The CRNHR makes allowance for mortality; pandemic and catastrophe; persistency; mass lapse; expense and inflation; and operational risk. For each risk, stand-alone risk capital has been computed to be consistent with a 99.5% confidence level over a one year time horizon using the economic capital model consistent with the EU Solvency II Standard Formula. Diversification benefits are considered overall at a Company level. Risk-capital is projected over the lifetime of the underlying risks using appropriate capital drivers. The cost of capital charge is assumed to be 5% per annum.

Time value of financial options and guarantees (TVFOG): The TVFOG reflects the value of the additional cost to shareholders that may arise from embedded financial options and guarantees attaching to the covered business. The intrinsic value of such options and guarantees is reflected in the PVFP.

4. Assumptions used

Demographic assumptions:

The best estimate assumptions for persistency, mortality and morbidity have been determined by having regard to the past, current and expected future experience for the Company.

Commission and Expenses:

The expense assumptions have been derived based on the Company's actual expenses during FY2019 with no anticipation of productivity gains or cost efficiencies. The fixed renewals are inflated from FY2020 onwards using the best estimate inflation rate.

The commission rates under different products are based on the actual commission payable (if any) to distributors.

Tax rates:

In determining the IEV, allowance has been made for future taxation costs expected to be incurred by the Company. This includes both corporate taxes and Goods and services tax.

The assumed taxation costs are based on existing taxation rates and structure throughout the projection period, as per the current approach adopted by the Company in determining its tax returns.

Economic assumptions:

Investment returns and discount rates are based on reference rates, used as proxy for risk free rates based on zero coupon central government bond yield curve published by FBIL.

Dear Sirs,

Willis Towers Watson Opinion on Embedded Value as at 31 March 2019

Willis Towers Watson Actuarial Advisory LLP (“Willis Towers Watson”, “we”, “us” or “our”) has been engaged by PNB MetLife India Insurance Company Limited (“PNB MetLife” or “the Company”) to review and provide an independent actuarial opinion on the embedded value results prepared by PNB MetLife. The review covered the embedded value as at 31 March 2019 and the value of one year’s new business written during the period 1 April 2018 to 31 March 2019 (together, “embedded value results”).

Scope of work

Our scope of work covered:

- A review of the methodology and assumptions used to determine the embedded value results;
- A review of the results of PNB MetLife’s calculation of the embedded value results;
- A review of the analysis of movement in embedded value for FY2018-19; and
- A review of select sensitivities as defined by the Company

Opinion

Willis Towers Watson has concluded that the methodology and assumptions used to determine the embedded value results of PNB MetLife comply with the standards issued by the Institute of Actuaries of India within the Actuarial Practice Standard 10 (“Indian Embedded Value Principles”), and in particular that:

- the economic assumptions used are internally consistent and result in the projected cash-flows being valued in line with the prices of similar cash-flows that are traded on the capital markets;
- the operating assumptions have been set with appropriate regard to the past, current and expected future experience;
- the Required Capital has been determined and projected on the basis of PNB MetLife’s internal capital target of 170% of the Required Solvency Margin and has been assessed from a shareholders’ perspective;
- allowance has been made for the Cost of Residual Non-Hedgeable Risks; and
- for participating business, the assumed bonus rates, and allocation of profit between policyholders and shareholders, are consistent with the projection assumptions, established company practice and local market practice.

Willis Towers Watson has also performed a number of checks on the models, processes and results of the calculations performed by PNB MetLife. On the basis of this review, Willis Towers Watson has confirmed that no issues have been discovered that have a material impact on the disclosed embedded value as at 31 March 2019, the value of one year’s new business written during the period 1 April 2018 to 31 March 2019, the analysis of movement in embedded value for FY2018-19 and the sensitivity analysis.

In arriving at these conclusions, Willis Towers Watson has relied on data and information provided by PNB MetLife. This Opinion is made solely to PNB MetLife in accordance with the terms of Willis Towers Watson’s engagement letter dated 21 February 2018 and addendum to this letter dated 11 March 2019. To the fullest extent permitted by applicable law, Willis Towers Watson does not accept or assume any responsibility, duty of care or liability to anyone other than PNB MetLife for or in connection with its review work, the opinions it has formed or for any statements set forth in this opinion.
